

# Rabbit/Con Thỏ

Hoàng Tiến Quyết

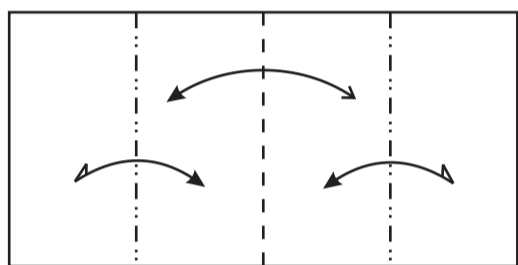

Model: March 2008

Diagrams: September 2008

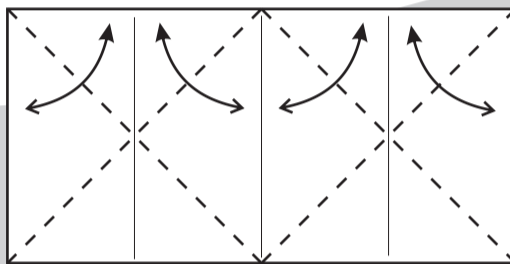

This rabbit was designed for folding with Vietnamese money, which has the dimensions are close to 1x2. You can also use a square by folding two edges to the center, and the result won't have color-change.

For best result, use a 1x2 rectangle and wet-folding.

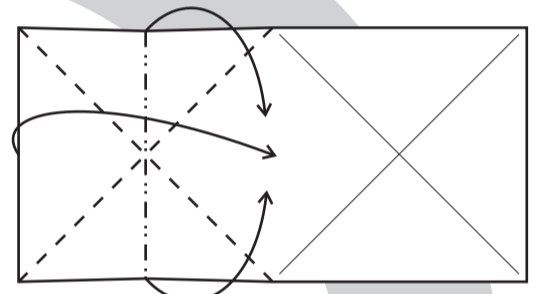

A sheet of 7.5x15 cm paper will produce a 6 cm length model.
